

As a representative of the American people it is your duty to look out for the public's best interest. It is not in our best interest for you to deregulate television and newspaper media. Deregulation will lead to the consolidation of media by large corporations who then have the opportunity to control what we read and see. It is important that we keep the independent voices that give us a well-rounded view of world events. Please consider the impact of deregulation on free speech. This is not about a free market, but about free exchange of ideas. It is very scary to consider that one or two large corporations might have so much influence. Thank you for your time and consideration.
